- Mind maps (Comprehensive Verbal and Math concepts)
- 1100 + practice questions to improve scores
- GMAT official guide to every student
- Unlimited access to Library

PRACTICE TESTS

- 9 internal topic wise test with analysis (Quant & Verbal)
- 15+ simulated computer adaptive mock GMAT tests

STUDENT SPEAK

I was looking for a classroom experience to keep myself motivated through the course of preparation. On my first day, I had to give a diagnostic test which was followed by classroom learning coupled with topic wise practice tests. The practice material is nicely structured with basic and next level problems segregated. Inspirus has a good library with most of the major publications available. My counselor, was very involved in my preparation and accommodated my requests on prioritizing specific classes. She made my study and test plans and updated them as I progressed. Thank you.
