(cds, books and notes) for practice and review

**PRACTICE TESTS**

5+ full length tests to simulate the real test experience  
Regular analysis and feedback for improvement

## STUDENT SPEAK

The resources at Inspirus for IELTS® practice are vast. By going through practice test after practice test every day, I the haphazard one perennially running late, was able to complete my IELTS® prep in just 10 days – and scored 9.0 bands in three of the 4 sections!

The speaking section had troubled me initially. But thanks to the many one on one speaking test practice sessions I had and the many tips I received from Inspirus on how to and what to answer, strategies on body language and the approach of keeping my cool when having to talk about something I had no clue about, I was able to build up my confidence and speak without a hitch on the test day- it totally paid off when I got a perfect score in that department.

I practiced equally on all sections and received support on all doubts and thus, I recommend Inspirus for all your IELTS® prep needs.
